An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

On page 1, line 5, after January 25, 2000, the following has been added: -- Now, US Patent 6,379,308 --.

The following is an examiner's statement of reasons for allowance: After a phone conversation with Mr. Leung and reviewing applicant's remarks, it is the examiner's position that there is no motivation to shorten the catheter to a length sufficient to provide the gel with a sufficient dynamic response. In paragraph [15] of the publication of the current application, 2002/0035331, applicant defines this length to generally be 5 mm to 4 cm, and in paragraph 38, it is defined that the catheter can be as short as 2mm. The device of Brockway says it is 5-6 cm for rats and much larger for dogs, and presumably humans. While Pohndorf shows a device with a pressure transmitting catheter having a length of an inch, it is not for the same purpose as those of Durand and Brockway and does not provide any motivation to shorten the device of the combination into the claimed range. No other art provides the requisite motivation and it is therefore the examiner's position that the claims are allowable.

Any comments considered necessary by applicant must be submitted later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is (571) 272-4731. The examiner can normally be reached on Mon-Fri, variable hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on (571) 272-4726. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
